EHT_CodeofConduct.pdf; DAP_Implementation_v7.pdf; EHT_CA.pdf;

Dear Leon,

Your nomination to become an individual member of the Event Horizon Telescope Collaboration (EHT) has been approved and, on behalf of the EHTC Board Chairperson Colin J. Lonsdale, it is my pleasure to invite you to accept the nomination by completing the online [acceptance form](#).

By accepting the rights and obligations of a collaboration member it will be understood that you agree to follow the regulations of the collaboration as described in the following documents attached:

- The Consortium Memorandum (CM)
- The Data Access, Analysis, and Publication Policy (DAAPP)
- The Code of Conduct (CoC)

A member of the EHT management team will contact you soon to discuss your availability to participate in one or more Working Groups, and the possible inclusion of your name in the General Author List. The Management Team is led by EHTC Director Huib van Langevelde, and Project Scientist Geoffrey Bower is responsible for organization of the Working Groups.

Please note that your nomination was brought forward by Buell Jannuzi of UArizona, who will be your representative on the EHTC Board.

Best regards and a warm welcome,

Michael Hecht
MIT Haystack Observatory
EHT Board Executive Secretary
